

# WAVE ENERGY INTERNATIONAL BUSINESS2BUSINESS EVENT

**28 APRIL 2015 AT AALBORG UNIVERSITY**  
AALBORG, DENMARK

Partnerskabet for **Bølgekraft**

**OFFSHORE  
ENERGY.DK**

# Meet the wave and tidal energy sector on an innovation and networking day

If you wish to expand your network and learn more about the latest knowledge in wave and tidal energy, sign up for WEIB, which offers a conference, B2B speed networking and exhibition

CEO PER RESEN FROM  
RESEN ENERGY  
TOOK PART IN WEIB  
LAST YEAR. HE SAYS:

” *The sector is still in its infancy and this networking event helps to make it more professional. WEIB brings the grass roots together. At WEIB, we share what we know and build the foundations for cooperation and exchanging ideas which can shape and set standards for the sector.*

Building on last year's success, we invite all players and stakeholders involved in wave and tidal energy research and development to the Wave Energy International Business2Business Event, WEIB.

The WEIB programme has two primary activities:

- 1. SECTOR UPDATE:** Information about the most recent test results as well as current and upcoming wave energy projects
- 2. NETWORKING:** A B2B speed networking event for all participants

Among the speakers is Professor emeritus Stephen Salter.

His lecture will take a look backwards at the high and low points of the UK wave energy programmes and attempt to summarize the, sometimes painful, lessons that have been learned and suggest ways in which future problems might be avoided. It will describe a thought experiment which will identify the features of the ideal wave energy system.

Sign up at: [www.weib.biz](http://www.weib.biz)

# The WEIB programme

—→ **CONFERENCE: Catch up on the latest knowledge**

Key players will bring the latest news about the sector's current status and future developments. The conference programme will be consistently updated. Read the latest programme update at [www.weib.biz](http://www.weib.biz).

—→ **B2B MEETINGS: Expand your network**

The B2B speed networking event gives you an opportunity to meet representatives from six different companies, universities and other stakeholders at 15-minute meetings. All you have to do is register meeting requests on the Offshoreenergy.dk online B2B tool, B2BPlanner.net, no later than 13 April. Offshoreenergy.dk will then create personal meeting schedules for all participants – based on their individual meeting requests.

Learn more and read the B2B tool guide at <http://b2bplanner.net/weib-2015/faq.aspx>

—→ **EXHIBITION: WEIB offers you opportunities to maximize your visibility towards the international wave energy industry through exhibition stands and through sponsor opportunities**

You can book a small stand at the event to present your products and services to key players in the sector. You can also sponsor the event. To book a stand or sponsor the event, send an email to Jan Ærensgaard at [ja@offshoreenergy.dk](mailto:ja@offshoreenergy.dk).

—→ **DATE AND TIME: 28 April 2015, 10.00-17.00**, Registration, networking and coffee from 9.30

—→ **VENUE: AALBORG UNIVERSITY**

Fredrik Bajers Vej 7H – Auditorium · 9220 Aalborg Øst, Denmark

—→ **PRICE: € 134 / DKK 1,000 (+VAT)**. Members of 'Partnerskabet for Bølgekraft' free of charge for two persons. Members of Offshoreenergy.dk receive 20% discount. Contact us for your reference code.

—→ **REGISTRATION DATE:** Sign up no later than 13 April to join the meeting reservations process from the start and to avoid late registration fee.

# Conference // B2B meetings // Exhibition

**OFFSHOREENERGY.DK** have an 8 year track record of coordinating international B2B events for the offshore industry. OWIB brings together the offshore wind energy sector, while OGIB is an annual gathering of the oil & gas sector. WEIB was added to the list of networking activities last year.

These events paves the way for knowledge sharing and help to create many new and interesting business partnerships and contacts which have promoted the growth and development of the energy sector. Building on previous successes, it is with great pleasure that we offer a similar event for wave energy again this year.

09.30	Registration, coffee and networking in the exhibition area	
10.00	Welcome and information on new structure //	Morten Basse Jensen, Offshoreenergy.dk
	The Partnership for Wave Energy and the Danish effort //	Kim Nielsen, Ramboll, and chair - man, Partnerskabet for Bølgekraft
	DanWEC, new strategy //	Jan Krogh, Offshoreenergy.dk
10.30	Mooring systems //	Henning Pilegaard, Crestwing
	Power take off systems //	Laurent Marquis, WaveStar
	Power transmission from floating construction to seabed //	Per Resen Steenstrup, Resen Energy
	Materials and components //	Erik Friis - Madsen, Wavedragon
11.30	Coffee and networking break	
11.50	A mainly backward look with some forward hopes for the future //	Professor emeritus Stephen Salter
12.30	Ongoing projects at Aalborg University //	Morten Mejlhede Kramer, AAU
13.00	Lunch	
14.00	Introduction to B2B //	Morten Holmager, Offshoreenergy.dk
14.10	6 rounds of B2B networking meetings	
16.30	Programme ends
